Family Reliability, Global Shipping

Founded in 1985 by a group of experts in the transport and shipping industry, Prisma initially focused its operations on German-speaking countries and the footwear sector.

With over 30 years of experience, the company has grown to a 3,000 m² facility, expanding the range of goods handled. No longer just footwear, but a wide variety of products distributed throughout Italy.

Thanks to dedicated transport services and constant support, Prisma has become a reliable partner for clients in various industries, establishing itself as a key player in national logistics.
